

RPMstage2

MOBILE SPEAKER SYSTEMS

AuraSound in recent years has received many accolades and awards for our innovative approach to reaching sonic excellence in the harsh automotive environment. Among the many qualities we always achieve is the ability to exceed current benchmarks within given product categories while continuing to offer end users unparalleled value.

RPMstage2 4000, 4600, 5200, 6200, 5700, 6900, 5000, 6000 RPM Speakers

RPM Stage2 speakers are the logical next step in performance and features for our value oriented line of speakers. The eight RPM Stage2 speaker systems are available in the following 2 way configurations: *4 inch, 4 x 6 inch, 5.25 inch, 6.5 inch, 5 x 7/6 x 8 inch and 6 x 9 inch.* Also available are 2 New Component systems featuring separate woofers, tweeters and outboard crossover networks in both *5.25"* and *6.5"* sizes. All Stage2 speakers feature NRT™ technology, polypropylene cones and smooth dome tweeters to insure the best balance of efficiency, power handling and overall sound quality. An important feature designed into this line of speakers is their ability to fit most vehicles on the road today. What does all this translate to? Simply, Speakers you can count on for rigorous competition and yet flexible and affordable enough to use as a system starter.

FEATURES COMMON TO ALL **RPMstage2** SPEAKERS

- NRT™ motors for higher excursion, and better bass
- Oversize voice coils, largest in their class, for high power handling and better reliability
- Polypropylene cones for lower distortion and durability
- Soft dome tweeters for smooth frequency response extended to 30kHz
- Easy fit mounting system
- Rigid steel basket
- High temperature tinsel leads
- Optimized Thiele/Small Parameters for trunk and door mounting
