

# WHISPER ENSEMBLE

AuraSound, in recent years has earned a reputation for allowing Sound Contractors, Computer Manufacturers, Home Theater Designers and Auto Sound Competitors the ability to create high quality sound in areas heretofore-non-existent. This reputation is well earned and due primarily to our proprietary patented technology – NRT.™ NRT™ equates to greater cone excursion & higher thermal capacity allowing us to use a smaller diameter cone and resultant smaller enclosure than many of our competitors. When the application calls for an equal size driver, the results are sound that is both deeper and louder. With all the above in mind, we are proud to present the results of refining this technology and applying it to Audio and Home Theater applications. We, emphasize Audio because so many of today's sound engineers have abandoned the quest for sonic improvements in audio and simply designed speakers that play loud.

## **Whisper Ensemble**

AuraSound's new Whisper Ensemble enables all of our trademark qualities to be applied to an even more diminutive package. We started with our hugely successful, highly elegant Baby Grand satellite enclosure design and reduced its cabinet size to an unprecedented 4.5". We then designed a new subwoofer to not only match their elegant finish and ultra-compact size but also amaze you with its ability to reproduce even the lowest octave of sound. Now for the details: Whisper Ensemble includes 5 satellites each containing (2) 1.25" NRT™ titanium transducers capable of handling 125 watts power and our new ultra-compact 125 watt 8" NRT™ subwoofer. All whisper cabinetry has 6 coats of hand rubbed, high gloss, piano finish lacquer. The Whisper Ensemble is capable of reproducing the entire bandwidth from 32 – 20kHz and perfect for that 2nd room system, office, 2nd home, dorm or 5.1 computer system. Like all AuraSound products, your imagination is the only limiting factor.

**Preliminary Features and Specifications** (all subject to change)

**WHISPER ENSEMBLE  
WECP-5.1**

- Complete 5.1 system for multi room applications
- Hand rubbed, high gloss, piano finish
- High sound pressure from an ultra compact design
- 2.5"w x 4.5"h x 3.5"d
- 125 watt power handling
- System Frequency Response 32Hz – 20kHz
- Compact 8", 125 watt NRT™ subwoofer

**DIMENSIONS:**

- Satellites: 2 5/8"w x 4"h x 3"d
- Subwoofer 10"w x 10"h x 12"d
